- Information Architecture
- Heuristic Evaluation
- Prototyping
- UX Research
- Usability Testing
- Accessibility (WCAG basics)
- A/B Testing
- User Research
- Prompt Engineering

Professional Experience

Gritstone Technologies

UI/UX Designer

May 2025 - Present
Calicut (Cyberpark)

- **Designed HRM mobile and admin web applications,** improving task flows and usability for HR operations.
- **Enhanced POS software UX** with an intuitive interface, enabling faster transactions and an improved customer experience.
- **Collaborated with cross-functional teams** to conceptualize, design, and implement intuitive interfaces for web and mobile applications.
- **Created wireframes, interactive prototypes, and high-fidelity mockups** using Figma, Adobe XD, Sketch, Photoshop, and Illustrator.
- **Conducted user research and usability testing,** applying user interviews and persona development to improve digital experiences.

Trogon Media

UI/UX Designer

March 2024-April 2025
Calicut (Cyberpark)

- **Conducted competitive analysis and market research** to identify target audience segments, map user journeys, and address user needs and pain points.
- **Designed intuitive web architectures** aligned with business goals, UX principles, and modern design trends.
- **Created user-centric UI/UX solutions** focused on enhancing engagement, accessibility, and usability.
- **Refined designs iteratively** based on user feedback, design critiques, and usability testing to improve user experience.
- **Developed responsive UI designs** and optimized user flows to improve usability and task efficiency.

Outthinking

Graphic Designer

February 2022 - March 2023
Bangalore

- **Designed brand identities and marketing assets** including logos, brochures, posters, social media creatives, and digital campaigns to strengthen brand consistency.
- **Created engaging digital and print designs** aligned with client requirements, brand guidelines, and marketing objectives.
- **Managed multiple design projects simultaneously,**balancing deadlines, creative quality, and stakeholder expectations.
- **Conducted market and competitor research** to identify visual trends and develop distinctive, audience-focused design concepts.
- **Refined creative assets based on client feedback** ensuring visual consistency and alignment with campaign goals.
- **Used Adobe Creative Suite** (Photoshop, Illustrator, and InDesign) to produce high-quality graphics and marketing collateral.
- **Developed and maintained brand guidelines** ensuring consistent typography, color palettes, and visual elements across platforms.
